MR. AGARS LETTEAR TO THE MAYOR. The following letter has been sent to Mayor Van

Wyck by School Commissioner John G. Agar:

January 4, 1819.

The Hon. Robert A. Van Wyck Mayor.

Dear Sir. While acknowledging receipt of your letter of yesterday. J beg the privilege of thanking you for the information that your Board of Estimate has at last deemed the schools worthy of their attention and heard the cry of the untufored children in the streets.

It is encouraging to lesern that you have granted in January, 1838, by our Borough School Board, for so great was the need of schools for our enidiren, so forrible the results of neglecting them for a long twelve months, that we estressly besought you and yours not to let any building contracts large, not to let the Corporation Counsel delay proceedings to acquire sites, not to deny us the proceeds of bonds authorized by the Legislature for sites and buildings. But you will remember that you preferred to turn a deaf, not to say offensive, car to our appeals, and left us to cram our children into the dirty and crime-begetting streets. This you did in January, 1838, you are to be commended for working to make up for time thrown away and to accommodate every child entitled to public clucation. But you and you alone are responsible for

I never so hard.

In conclusion, let me remind you that the Board of Education, or the Horough School Boards, have nothing to do with condemnation proceedings, except to authorize them. Your able legal adviser has entire conduct of these proceedings.

We authorized many proceedings in 1867, and he had delayed most of these for a year in spite of our protests. If you can force him to action, pray do so. We have tried in vain.

Wishing you every measure of success in your

CLEVELAND COMPANY GETS CONTROL OF MICHI-

Cleveland, Jan. 4 .- A local paper says that one of the biggest telephone deals in the history of the business is about to take place. Papers were executed to-day to transfer a large interest in the stock of the Michigan Telephone Company, and placing the management, as soon as the documents agers of the Cleveland Telephone Company Michigan Company operates exclusively under the American Bell Telephone Company's license in Michigan, with nineteen thousand subscribers and ten thousand miles of long-distance wire. The capital stock of the company is \$2,500,000.

The new arrangement places under the Cleve land management the largest number of subscribers in the United States," said J. P. McKinsley, general manager of the Cleveland Telephone Company, tomanager of the Cleveland Telephone Company, today. There are in all fifty thousand subscribers
and thirty thousand infles of toll line. The added
development of this combined territory cannot be
less than fifteen thousand subscribers in 189 comprising the States of North Dakota, South Dakota,
Minnesota, Michigan, Arkansas and Texas. It
would not be surprising if the copper district in
Northern Michigan were talking with Boston before
the close of the year. Full details cannot yet be
given, but some important changes in policy of
management will be made ultimately."

It was deemed particdarly desirable and important that the company's rights in these vessels should be preserved, not only because they are essential to the preservation of the business, but because the vessels are charactered at prices advantageous to the company. The carrying capacity of the vessels on the coast is much more remunerative than on the Lakes. Now that the vessels have been transferred to the coast at a large cost, the owners, it is believed, would gladly take them before the expiration of the leases, if the opportunity were presented. The leases amount to \$12.00 a month. The company is indebted for wages to seamen and others employed on the vessels of the fleet, and these have a lien thereon for their wages. Just before 6 o'clock people in the neighborhood and for some distance away heard a peculiar whirring noise, followed several seconds later by an explosion. Directly opposite the platform is the hotel of Martin Wolf, where he lives with his wife and two children. He and his wife were awakened by the whirring sound. The McShane girl was picking wood alongside the under the tanks, when the accident happened. She was carried by the water into the middle of the street. She was lost to sight for a few seconds, and when the volume of water began to flow back after striking the hotel the girl was left in the street pinned down by wreckage.

Four men were walking in the street when the tank burst. They were carried with the fence and the ruins out into the street. When the water left them they heard the cries of the girl. Three of them hurried to her and succeeded in getting her from under the wreckage. Then they waded through the water to the hotel with the girl, who was unconscious. An ambulance was summoned, under the tanks, when the accident happened. She

It must be taken into consideration at the present time that we are now on a high plane of prosperity. This fact is the best reason for conservatism. This country has accumulated \$50,000,000 to \$1,000,000,000 of cash in surplus reserves, and for investment purposes. To be able to spend this wisely and judiciously requires the use of great tact and foresign. In fact, it is the greatest responsibility this country has ever had. Both commercially and politically, this country has suddenly leaped into the society of nations. We are like a young man raising a family without previous experience. We have attained a standard of commercial and political supremacy which must be maintained. I do not wish to be understood as being pessimistic, but it seems to me to be the proper time to use great conservatism in spending the enormous monetary wealth we have so recently acquired and in laying plans for the raising of our new territorial acquisitions to a licensive position. Now is the time to lay something by for a "rainy day."

Continuing, Mr Sage said that the present situa-Continuing. Mr Sage said that the present situa-tion called for the exercise of the highest skill in both finance and statesmanship, in order that the country might continue on the high level which it had attained, and he counselled prudence in the investment of the vast stores of money now held in the United States and in the management of the new political possessions assumed by this Gov-ernment.

PLEASED WITH THE MOHAWK.

QUARTERMASTER'S DEPARTMENT INSPECTS THE TRANSPORT WHICH IS GOING TO CARRY TROOPS TO MANILA.

Generals Ludington and Lawton and Colone Hecker, of the Quartermaster's Department, went to Erie Basin yesterday to inspect the newly arrived transport Mohawk. They pronounced her one of the best transports they had seen in the ser vice. It is thought the troops that are to be sent from this port to Manila on board the transports Molawk and Mobile will sail about January 17.
The troops selected to go are the 4th Infantry, from Fort Sheridan, Chicago, the 12th Infantry, from Jefferson Barracks, Missouri, and the 17th Infantry from Columbus Barracks, Columbus, Ohio. They will go by the way of the Suez Canal, and will be commanded by General Lawton.

FRANK A. PARKER HELD FOR TRIAL

SWINDLER WHO SECURED \$2,000 FROM THE GER-MAN EXCHANGE BANK LOOKED LIKE HIS ALLEGED CONFEDERATE.

Frank A. Parker, of Chicago, who was arrested by Central Office Detectives Price and Kiernan last week on the charge of forgery, was up for ex-amination yesterday before Magistrate Mott in the

George Lynch, manager of the diamond store at Fourteenth-st. and Broadway, testified to having received a worthless check for \$221 on the German Exchange Bank from Walter Dixon, now under indictment for forgery. Mrs. Lee, a boarding-house keeper of No. 229 West Thirty-eighth-st., testified that the prisoner gave her a worthless check for \$5 and absconded soon afterward owing a board bill. Two District Telegraph messenger and then went to his home.

The railroad people absolutely refused to have anything to say about the accident.

RUSSELL SAGE ON THE GENERAL BUSINESS AND POLITICAL CUTLOOK.

Russell Sage is quoted as expressing the following views in regard to the general business and political outlook.

JAIL MEAT CONTRACT NOT AWARDED.

ARMOUR & CO. STOP THE OPENING OF BIDS WITH AN INJUNCTION. Commissioner of Correction Francis J. Lantry beef, mutton and veal to the institutions on Blackwell's Island and the Kings County Pentientlary. He was restrained, however, by an order of the Court, obtained by the New-York representative

of Armour & Co., the Chicago packers. The contract in question involves the purchase of several hundred thousand pounds of meat. Man damus proceedings have been brought by the Chl-cago concern to compel the Commissioner to strike out of the specifications a clause which required the animals to be killed and the meat dressed in New-York State. The mandamus will come up be-fore Justice Truax for argument on Tuesday next.

NO ONE BLAMED FOR ALAMO DEATHS.

JURY OF EXPERTS FINDS THAT THE SIX VICTIMS

An inquest was held yesterday in which an ating of a steam-pipe on board the Mallory Line nen were killed. The jury in the case had been struction of engines and boilers. Chief Engineer Hugh Canning, of the Alamo, who was placed under arrest on the day of the explosion and held in \$2,500 hall, was present in court.

Nos. 43, 45 and 47 Franklin-st., testified that he visited the scene of the accident at the request of oroner Bausch on the night of the explosion and made a careful examination of the boiler and all of the pipes, and he was positive that no blame for the accident could be placed on any one. "Can you suggest a cause"" asked the Coroner.

"I have no suggestion to make," replied the witcan tell the cause of the accident." Government Inspector Andrew Gaul testified that

he made an inspection of the botler and all of the pipes on December 1, 2 and 3, and found that all requirements of the Government had been compiled with. He made the usual tests, and could not attribute a cause for the accident. Chief Engineer Hugh Canning testified that the boilers and pines were entirely new, and said that he also could no were entirely new, and said that he also could not suggest a cause for the accident. The last witness was Thomas S. Hall, who had charge of the repairs to the ship's engines before and after the accident. He said that he could not even advance a theory for the accident.

The jury returned a verdict that the six men came to their death by being scuided, caused by the partial drawing out of the slip joint, thereby weakening the scampipe at the point of the breaking of the flange this being followed by breaking due to steam pressure on the said weakened pipe, after which the said slip joint nulled out as the pipe fell. Chief Engineer Hugh Canning was exonerated from all blame and was discharged.
